Protective Coatings Division

Primers for Plastic Surfaces

Polypropylene & FRP Primers

Product Description

Anupam PP Primer and **Anupam FRP Primer** are air drying single pack primers that promote excellent adhesion of coatings on polypropylene and FRP substrates. These primers provide excellent adhesion when topcoated with a wide range of finishes. These primers resist redissolving during topcoat application resulting in excellent holdout because they are insoluble or slightly soluble in most solvent used in topcoats.

Physical and Technical Data

Colour	Pale Yellow Liquids
Dry Film Thickness	1 - 2 microns
Thinner Intake	Not required
No. of Coats recommended	One coat only
Appearance	Smooth and clear
Compatibility with topcoats	Polyurethane, Epoxy and other organic topcoats
Recoatability	After 5 minutes and before 1 hour of application
Theoretical Coverage - (no loss)	150 - 160 sq. ft. per litre
Packing	1 litre, 5 litres and 20 litres
Method of Application	Spray / Cotton Swabbing
